

27 September 2024

Welcome to your weekly update from your NPA Commander

Introduction

Welcome to my update for the residents of Melton & Rutland Neighbourhood Policing Areal (NPA). This Newsletter is to give you a snapshot of what has been happening over the last seven days and to also look at our policing plans in the near future.

Speeding

The local community and councillors have raised concerns regarding road safety in particular on Long Lane near to Plungar. Following covert speed monitoring, data received supports the concerns of the community and the location has now been agreed to be a location for the speed camera enforcement van. We will also be carrying out local enforcement to support the van deployment too....

This week's crime overview

In Rutland we have had a high-value theft of copper, this is likely to be an emerging crime type due to the significant rise in the value of copper. We will post the prevention advice in due course but please remain vigilant and report any suspicious incidents or crimes in progress to us on either 999 if it is happening now, alternatively 101 or our website if it is a non-emergency.

Anti social behaviour

I attended a very positive meeting with Melton Borough Council, representatives from local educational provisions along with a representative from the Melton BID (Business Improvement District). The meeting was to discuss anti-social behaviour and retail crime in the town, even though there has been a reduction over the last 12 months we felt it was a discuss how we continue to tackle the issues with October half-term, Halloween and Bonfire night fast approaching. In the next couple of weeks I will be able to provide an update of how this plan will be implemented.

PC Shane will be working with the schools and providing a platform for PC Will and PC Lucy to take police lead on issues in the town
